## Maxpro High Pressure Data Logger

MAXPRO® Technologies introduces a refined electronic pressure logger to simplify the recording and reporting of test data. The unit is designed to digitally record pressure during tests, complementing Maxpro pump and booster packaged power systems. Pressure loggers are useful in any industry that needs an easy, accurate way to record pressure tests. Options for multiple channels, temperature flow, and other data are available.

The standard Data Logger comes with a pressure transducer, two pre-formatted jump drives and an operating booklet, including step-by-step instructions on how to create customized test reports on your computer.
